RECORD OF COMUSMACV FONECON

WITH: Amb. Bunker 0950 28 Mar 68

SUBJECT:

NOTE: First part of conversation not monitored.

(.....a new NVA unit moved into the Highlands.) Apparently, infiltration is stepping up. (I think at an unprecedented rate. There is certainly every evidence they started this rate about six months ago. I would estimate approximately 10,000 a month and maybe as many as 12,000. It will be a few months before we will have enough intelligence to make a good estimate.)
